BLUE LIAS LIME, PLASTER, &c.

THOMAS FREEN and CO. having connected with their ROMAN CEMENT WORKS an extensive Manufactory of GROUND BLUE LIAS LIME and PLASTER of PARIS, beg to call the attention of Builders and others to the very superior quality of these articles, which they are prepared to supply upon the most reasonable terms.

WORKS.—Tunnel Wharf, Regent's Canal, Kingsland-road, London.

DEPÔTS.—Lee's Wharf, Paddington; and Phœnix Wharf, Greenwich.

N.B. Grey and Chalk Lime, Paving Bricks, Tiles, Artificial Stone, Plasterers' Hair, &c. &c.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through long detention at sea, has often proved stale and unfit for use on its arrival in London. By the arrangement now made, the Cement will be manufactured in London, and thus presented to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for in-door flooring, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used for a stucco it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brick work, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger than the best Parker's Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the fittest material for building sea and esplanade walls, the lining of reservoirs, cisterns, and baths, and for all such purposes where strength and a perfect resistance to water are required.

Manufacturers—J. B. WHITE and SONS, Millbank-street, Westminster, and 26, Rood-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to Nos. 202, page 481; and also from 204 and 205, pages 503 and 551 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, wherein the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in the cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, or blaze, or turn green; nor is it affected by any atmospheric influence whatever the climate, resisting alike the severest frosts and hottest suns. It hardens in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 66, Hanover-street, Liverpool.

MARTIN'S PATENT

FIRE-PROOF AND ORNAMENTAL CEMENT,

APPLICABLE FOR

ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public so many years, and obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. Messrs. STEVENS and SON however feel bound upon to observe, that from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 10 per cent. in material, full 7 per cent. less in price, with an additional saving in labour of 15 per cent.; by its allowing about forty minutes for working, being less than one-tenth of the time of other cements to which it is similar, therefore worked with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT.; its advantages therefore cannot admit of doubt. Specimens, showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement, in any quantity, obtained of Messrs. STEVENS and SON, at their Plaster and Cement Works, 186, Drury-lane, London—Manufactory, Derwent Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterers.

JOHNS and Co.'s PATENT PERMANENT STUCCO WASH, CEMENT, and PAINT.—The attention of the trade and the public generally is solicited to them very excellent and well-known materials, which, for their complete durability, imperviousness, and cheapness are unequalled. THE PERMANENT WASH, as a substitute for common lime-wash or water-colour, is an article which has long been wanting for stucco and brick-work; it is of a stone colour, but may be tinted to any other; is perfectly dry in twenty-four hours; will not wash off; is very little dearer than the common washes; and, being a non-absorbent, is admirably adapted for railway stations, union workhouses, schools, barracks, prisons, &c. One cwt. is sufficient to cover, with two coats, 120 square yards. THE CEMENT, from the great reduction in price, and its suitableness for internal as well as external purposes, is above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water. The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HAIN, at the Warehouse, 10, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

TO THE BUILDING PUBLIC.

FIRST-RATE ORNAMENTS in PORTLAND, ROMAN, and other CEMENTS, and PLASTER of PARIS, at reasonable prices, consisting of Vases, Balustrades, Trusses, Consoles, Scrolls, Medallions, Centre Pieces, Brackets, Trusses, Panels, all in Masters, Friezes, Mouldings, Pilasters, Bottles and other Chimney Shafts, Lodges, Bed-mouldings, Pedestals, &c. &c. Centre Flowers from 10 feet diameter downwards. An assortment of Shop-front Trusses always ready for fixing.—HERBERT and SON, Modellers, &c., 43, Parker-street, Drury-lane.

THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4, Porchester-terrace North, Paddington, 15th February, 1850.

Dear Sirs,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from whence I date was first inhabited by me on 7th September last, not a brick having been laid before the 1st of June—that is to say, in three months and one week! I steamed the walls throughout with Parian; papered some, painted and marbled others; and the whole work has been dry and perfect from that hour. I need say no more.—I am, Gentlemen, yours respectfully,

WM. CANTLEBURY.

Messrs. Chas. Francis and Sons, Nine Elms.

BELL'S PATENT LIQUID CEMENT is ready for use, and only one-eighth the cost of oil paint. For beauty it is pre-eminent, giving the exact appearance of FINE CUT STONE. Can be used at once on fresh Roman Cement, or any other plastering, and will protect the walls as well as Roman Cement. In casks of 1, 2, and 3 cwt., at 6s. 6d. and 5s., casks included.

PATENT MINERAL PAINTS,

Invaluable for cheapness, beauty, and permanence; not half the cost of other paints, always ready for use, will keep good for years, and therefore well suited for exportation. Brilliant black, in; rich browns, 2s. 6d.; greens and light colours, 4s. per gallon.

C. BELL and Co., 9, Wellington-street, Gravel-street.

THE PATENT ARCHITECTURAL ROOFING TILES are strongly recommended as an improved system of roofing, and, from their extremely light and elegant appearance are peculiarly adapted for covering Churches, Parsonage houses, Schools, Ornamental and other Villas. A material feature of these Tiles is their economy; they are as cheap as ordinary slating, and do not require stronger timbers. Every information may be obtained by application to the Secretary, at the Offices, No. 158, Strand, where specimens of the Tiles may be seen.

DUTY OFF BRICKS.—Mr. L. DAVIS begs to inform the Public that his PLUMSTEAD BRICK FIELDS are NOW OPEN, and he is now offering, for ready money only, Hard Stocks, 24s.; Place, 15s. per thousand.

N.B. Some very desirable Plots of Freehold Building Land to Let, with good Roads, sewers, and gas. Advances if required. Offices, Powis-street, Woolwich.

WARD & COMPANY, Honduras Wharf, Bankside, and Jamaica and Madeira Coffee-house, Cornhill, London.—FIRE BRICKS in Stourbridge, Newcastle, Welsh, Windsor, Nonsuch, &c. &c. Also Lumps, Tiles, Shield Quarries, Retorts, Shapes, &c. &c., of the best manufactured materials. Fire Loam and Clays. Patterns Goods for Engineers, Ironmongers, &c. at very REDUCED PRICES, and on the SHORTEST NOTICE. Shipments to all parts of the world. Pan Tiles, 9s. per thousand; plain, 12s.; Paving or Crown Fire Bricks, 42s.; and all other country red goods of a superior description at very LOW PRICES. Dutch and English Clinkers; Patent Malting and Corn-drying Tiles; Suffolk Pantiles, White and Red, Stocks, Malms, Paviors', Seconds, Picking, and Place Bricks; Thames Sand and Ballast by barge or otherwise, on the best terms; Sanitary Pipes of all kinds.

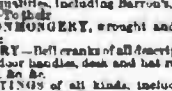
BRICKS.—In consequence of the low price at which Brickmakers have, for some time past, been purchasing Ashes and Breese, H. DODD is enabled to offer his bricks, which are of good quality, at the following low prices; and as his fields are only a quarter of an hour's walk from the City, H. D. earnestly requests purchasers will favour him with a visit, in order to inspect his stock and to judge for themselves.

Marle Cutters	50s.	per thousand.
Yellow Seconds	32s.	6d. "
Pale Seconds	30s.	"
Paviors	42s.	"
Pickings	22s.	"

Marle Place, Half-washed Stocks, and Place Bricks, at equally low prices. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the Stocks being suitable for external facings. They will be delivered at the above prices anywhere within two miles of the fields.

Apply to HENRY DODD and Co., at the Counting-house, Horton Brickfields, Grange-walk, near the Rosemary Branch, Hoxton.

N.B. Red Pit Sand, of approved quality, constantly on sale, upon reasonable terms. In the erection of walls, where it is desirable that the work should be kept as free from damp as possible, this sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.



TO BUILDERS AND OTHERS.
